👤 PROFILE

Front-end Developer with a proven ability to collaborate effectively with senior developers while spending extra time to be mentored. Driven and enthusiastic front-end developer with 2+ years of experience executing with a plethora of diverse skills, and passion for creating exceptional web experiences. Experienced in back-end technologies, SQL database skills, UX design, manual testing, test automation, tracking tools, CI/CD, and A/B testing. With a passion for both personal growth and software development, I take courses online on Coursera and Pluralsight to learn new technologies while sharpening existing skills. Ready to apply my passion for coding to a talented engineering team to develop quality solutions.

💼 PROFESSIONAL EXPERIENCE

Web Developer, Zenith Bank (Ghana) Limited

2022 November – 2023 December
Accra, Ghana

- Worked with the QA team to resolve bugs and ensure the delivery of high-quality software products.
- Implemented continuous integration and deployment pipelines, reducing release cycles by 28%.
- Optimized database queries, and database architecture of web applications, to improve overall database performance by 43%.
- Worked with 7 developers and a team of project managers to achieve design goals, and directly helped advance design system documentation.
- Created and maintained front-end code for 10+ web applications (re-designs, seasonal updates, production work).
- Rewrote HTML to meet industry and company standards for SEO and Accessibility.
- Architectured 3 flexible component APIs with high security as OAuth2, JWT, and Bearer Authentication, etc.

Front-End Developer (Intern), Afrifanom Limited

2022 June – 2022 August
Dansoman, Ghana

- Delivered 5+ projects of all sizes, creating solutions for consumer services.
- Utilized HTML, CSS, and JavaScript to create 5+ responsive landing pages for both company and client.
- Wrote 11+ automated tests for every new feature to identify and rectify bugs.

- Assisted the development team in maintaining 6 websites.
- Implemented front-end technical solutions to meet project requirements for the creation of 5 new web pages.
- Conducted research and assisted with new business scoping efforts, resulting in the acquisition of 3 clients.
- Worked in an Agile collaborated environment to receive design requirements, peer programs, and test applications.
